

Summary of Migratory Birds Hunting Regulations

August 2024
to July 2025

Notice: Avian influenza virus is a contagious viral infection that can affect domestic and wild birds throughout the world. Guidelines have been developed to prevent or mitigate the spread of this virus, and for precautionary measures to take when handling wild game. For more information, please refer to www.canada.ca/Avian-flu and the *Wildlife and Avian Influenza – Handling Guidelines to Protect Your Health* web page on the Government of Canada website.

To hunt migratory game birds in Canada, you must possess:

- a valid Migratory Game Bird Hunting Permit;
- a Canadian Wildlife Habitat Conservation Stamp on the permit.

These two documents are issued by the federal government and are valid in all provinces and territories.

The 2024 federal permit is also valid for the 2025 spring special conservation harvest for Snow Geese and Ross's Geese.

Refer to the *Migratory Birds Regulations, 2022* for restrictions and requirements for items such as baiting, hunting methods and equipment.

Most provinces and territories have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory and municipality where you will be hunting. Restrictions such as minimum required distances from residences and businesses for the discharge of firearms may be applicable.

You can purchase your Migratory Game Bird Hunting Permit by visiting the Government of Canada website (www.permis-permits.ec.gc.ca). Hunters may carry their Migratory Game Bird Hunting (MGBH) permit either in physical (paper) or electronic formats (such as on a mobile device). Electronic MGBH permits must be in the PDF format provided by the e-permitting system (a photograph or screenshot of your permit is not valid). It is the hunter's responsibility to be able to show all required permits to a game officer immediately upon request.

If you are hunting on private lands within an area with a settled land claim, you must ask permission first.

Consultation Process and Migratory Birds Regulatory Reports

A national consultation process has been developed which includes a report on the population status of migratory game birds and a consultation document that provide an opportunity to participate in developing the hunting regulations. For more information, consult the *Migratory Birds Regulatory Report Series* web page on the Government of Canada website.

Youth Migratory Game Bird Hunting (MGBH) Permit

Hunters who are minors (less than 18 years old) have the option to hunt with a Youth MGBH permit. The Youth MGBH permit, as well as the Canadian Wildlife Habitat Conservation stamp, can only be obtained through our online permitting system, free of charge. The Youth MGBH permit is not available for purchase from independent vendors or Canada Post.

The Youth MGBH permit provides young hunters with the opportunity to practice their skills under the supervision of an adult mentor (in possession of a MGBH Permit) throughout the full open season and the special conservation season, and provides Youth MGBH Permit holders with their own daily bag and possession limits.

Mentors must possess their own MGBH permit, must have held such a permit in a previous year, and may accompany no more than two youth hunters. Mentors may carry a firearm, and may hunt. For more information on the new rules pertaining to hunting migratory game birds in the modernized *Migratory Birds Regulations, 2022*, please consult the Government of Canada *Migratory Game Bird Hunting* website.

Enforcement

Federal game officers enforce the *Migratory Birds Convention Act, 1994* (MBCA) and its associated regulations throughout Canada. This law regulates human activities, such as hunting, that could adversely affect wildlife conservation. Game officers may use warnings, administrative monetary penalties, tickets or prosecutions to enforce the provisions of the MBCA and its regulations. The fines and penalties that may be imposed reflect the seriousness of the offence(s). Individuals may be subject to a fine range for a first offence associated to sections of the MBR, 2022 designated for the purposes of paragraph 13(1)(c) of the MBCA, 1994 on summary conviction of not less than \$5,000 and not more than \$300,000, or imprisonment for a term of not more than six months, or both.

Shot

- Lead shot is toxic to wildlife and the environment.
- In the Northwest Territories, the use and possession of shot other than non-toxic shot is prohibited while hunting migratory game birds.
- Within National Wildlife Areas (NWA) that allow hunting, the possession of lead shot is prohibited for all hunting, including the hunting of migratory birds and upland game birds. Refer to the *Wildlife Area Regulations* to know which NWAs allow hunting and for the restrictions or requirements when conducting this activity.

To reduce your exposure to contaminants in meat, make sure, before cooking it, to:

- remove the skin and fat from fish-eating birds.

Crime Stoppers

Anyone wishing to report illegal hunting activities, illegal selling of birds or other offences related to migratory birds is asked to call Crime Stoppers at 1-800-222-TIPS (8477). Your call is anonymous, and you may be eligible for a cash reward.

Open Season and Daily Bag and Possession Limits for Migratory Game Birds in the Northwest Territories

Area	Species	Open Season	Daily Bag Limit	Possession Limit
Throughout the Northwest Territories	All ducks, combined	September 1 to December 10	25 for residents of Canada	No limit for residents of Canada
			8 for non-residents of Canada	16 for non-residents of Canada
	Canada Geese, Cackling Geese, White-fronted Geese and Brant, combined	September 1 to December 10	15 for residents of Canada	No limit for residents of Canada
			5 for non-residents of Canada (not more than 2 may be White-fronted Geese)	10 for non-residents of Canada (not more than 4 may be White-fronted Geese)
Coots	September 1 to December 10	25	No limit	
Snipe	September 1 to December 10	10	No limit for residents of Canada	
			20 for non-residents of Canada	

Special Measures for Overabundant Species in the Northwest Territories

Area	Species	Open Season	Daily Bag Limit	Possession Limit	Additional Hunting Method or Equipment
Banks Island and the portions of Victoria Island and of the Queen Elizabeth Islands that are in the Northwest Territories	Snow Geese and Ross's Geese, combined	September 1 to December 10	50	No limit	Electronic bird calls of Snow Geese and Ross's Geese may be used. While hunting those species with those calls, any other species of migratory bird for which it is the open season may be hunted.
		May 1 to June 30			Electronic bird calls of Snow Geese and Ross's Geese may be used.
Throughout the Northwest Territories except Banks Island, Victoria Island and Queen Elizabeth Islands	Snow Geese and Ross's Geese, combined	September 1 to December 10	50	No limit	Electronic bird calls of Snow Geese and Ross's Geese may be used. While hunting those species with those calls, any other species of migratory bird for which it is the open season may be hunted.
		May 1 to May 28			Electronic bird calls of Snow Geese and Ross's Geese may be used.

Note: No person shall hunt earlier than one hour before sunrise or later than one hour after sunset.

The information presented here is a summary of the law. If there is a discrepancy between the law and this summary, the law prevails.
